

NAVDEEP SINGH CHANDER

PROJECT & PROGRAM MANAGEMENT | SOFTWARE DEVELOPMENT

PROFILE SUMMARY

- ❖ IT professional with **nearly 2 decades** of combined multi-disciplinary, rich, & global experience across **Software Development & Design, Project & Delivery Management, and Team Management**
- ❖ Showcased excellence in managing **end-to-end project planning & implementation** from scope management, to activity sequencing, risk analysis to quality management in line with the guidelines & norms
- ❖ Skilled in implementing project methodologies like **Agile/ Scrum/ SAFe framework**; possess broad technical knowledge of **application design, architecture, and integration**
- ❖ **Excellence in gathering and understanding requirements of clients** & other multiple stakeholders, followed by translation into functional specifications as well as provisioning of suitable software solutions
- ❖ Proven success in acting as a **Delivery Anchor** for new projects involving creation of solutions and delivery planning; successfully delivered implementation & support projects across multiple businesses & geographies
- ❖ **Rich experience in mapping** and providing them best solutions involving evaluation and definition of the scope of the project and finalization of the project requirements
- ❖ **Enterprising leader** with a deep business process knowledge and change management acumen; have seamlessly led diverse teams across large scale processes
- ❖ Directed **technology planning** & direction, strategy development, **leadership & implementation**, business & operational transformation execution, business solution delivery, and business development
- ❖ Consistently recognized for **delivering projects on time**, building, managing, and mentoring **software development teams** and organizations
- ❖ **People engagement specialist**, excels at leading and realigning work groups and roles to foster an environment of collective leadership; insightful cross-cultural exposure while working with geographically diversified & multi-functional teams.

CAREER TIMELINE

SIGNIFICANT AWARDS & ACCOLADES ACROSS THE CAREER

- ❖ **Excellent Service Award** in 2023
- ❖ **Award for Outstanding Performance** in 2018
- ❖ **Hall of Fame Award** in 2015
- ❖ **Gumby Award** in 2013
- ❖ **HP eAward** in Jan 2007, Oct 2007, Jan 2008
- ❖ **Professional Excellence Award** in 2006
- ❖ Award of Excellence: **High Achiever Highflier Award** in 2005 based on two consecutive quarter's performance
- ❖ **Employee of the Quarter Award** in 2004

WORK EXPERIENCE

GROWTH PATH WITH ENCORA

OBJECTIVE

Dynamic & Tech Savvy professional having multi-cultural and diversified experience; targeting for leadership roles in Project Management with an organization of high repute

EDUCATION

- 2003
B.E. in Electronics & Communications
National Institute of Technology (NIT), Surathkal

CORE COMPETENCIES

- Strategic Planning & Implementation
- IT Project/ Program Management
- Solution Architecture & Testing
- Technology Roadmap & Development
- Team Building & Leadership
- Client Relationship Management
- Process Improvement & Operational Excellence
- Stakeholder Management
- Application Development & Support
- Delivery Management

SOFT SKILLS

- Communicator
- Reliable
- Negotiator
- Problem Solving
- Learner
- Creative Spirit

TRAINING

IIT Madras - Advanced Certificate in Software Engineering for Cloud, Blockchain & IoT: Aug 2021 – Jul 2022

SCJP 5.0 - Sun Certified Java 5.0 Programmer

CompTIA A+ Certification for Hardware and Operating System

RESPONSIBILITIES ACROSS THE CAREER

- ❖ Liaising with clients to gather and assess needs in order to match project deliverables
- ❖ Creating effort estimates, design documents such as process flow diagrams and application design documents, release plans, and code reviews
- ❖ Connecting an organisational portal with OpenSSO to enable the use of external components for single sign-on
- ❖ Utilising Spring Web Services to keep up with AP features
- ❖ Managing changes to the project database, as well as creating & deploying project code to the testing and production environments
- ❖ Supervising the departure of former team members and creating scripts to deploy Production Loading
- ❖ Developing administrator pages to allow editing, adding, and removal of data added by the programme administrator
- ❖ Providing technical assistance to HP's clients and customers for hardware installation on solitary PCs or networks
- ❖ Preparing IT operations budgets and taking part in global RFP & Request for Quotation (RFQ) documents to purchase new business technologies
- ❖ Giving technological guidance, recommending spending limits for plans and initiatives, making purchases & upgrading equipment, and leading projects involving IT information
- ❖ Driving business and IT project portfolios while balancing risk, ROI, opportunity, and demand
- ❖ Establishing objective operating models and creating strategic IT transformation strategies that take advantage of new business enablement, cost reductions, and operational efficiency
- ❖ Administering projects and project portfolios for high impact information system selection, procurement, development, and installation
- ❖ Devising & implementing an enterprise-wide disaster recovery and business continuity plan; making suggestions for the restructuring or development of the IT organisation
- ❖ Planning IT strategy in accordance with business objectives; converting complex business requirements into cutting-edge technological solutions
- ❖ Leading a team of 55+ resources including Architects, Developers, Testers, and Business Analysts across multiple projects & geographies with a high level of collaboration and communication, resulting in reduced resource wastage and higher reliability
- ❖ Communicating the delivery status of the projects regularly to leadership team and business stakeholders
- ❖ Introducing process changes to maintain quality as the team increased in size and expanded to multiple locations
- ❖ Following the project life cycle methodology defined under the process framework; ensured that customer deadlines were met within project budgets
- ❖ Recognizing issues and risks in a timely manner; developed/implemented appropriate mitigation and contingency plans
- ❖ Tracking and creating project status reports and presented report status to the client
- ❖ Controlling iterative application development projects using Agile and Scrum methodologies

TECHNICAL SKILL SET

Frameworks:

Spring Boot, Spring (MVC, WebFlux, REST API, Security, Data), JPA 2.0, Hibernate 5.0

Languages:

Java 8.0, 11, 21, Angular, Python 3.0, JSP/Servlets, Shell Scripting, JavaScript

Web/Application Server:

Apache Tomcat 10.0, Liferay 6.0, JBoss AS 4.3, Weblogic 9.2, IIS 7.0

Databases:

Microsoft SQL, MySQL, PostgreSQL, MongoDB (NoSQL DB), Oracle 10g

CI/CD:

Rancher, Kubernetes, Git, SVN, Hudson, Jenkins, Ansible, Helm Charts

Cloud Service:

Microsoft Azure, Amazon Web Services (AWS), VMWare Cloud Foundry

API Gateway:

Apache APISIX

Operating Systems:

CentOS, Ubuntu, Windows, HP-UX, Fedora

Other Tools:

SpringSource Tool Suite, Eclipse, IntelliJ, Maven, Putty

PROJECT ANNEXURE

Title (Domain)	Period	Role	Technology Used	Description
Supplier Connect 2.0	2022-Present	Sr Engg Director	Java 21, Spring Boot, Spring WebFlux, Angular Rancher, Apache APISIX, KeyClock, DBT, PostgreSQL, Microsoft Azure, ChatBot	Developing a cutting-edge new version of Deduction Management system for Retail Domain
Solar Loan	2021-Present	Sr Engg Director	Java 9, Scala, Spring Boot, AWS, Docker, Salesforce, Snowflake, DBT, Datadog	- Working in FinTech domain for a client which specializes in solar lending - Collaborating between multiple teams to implement optimized solution and focusing on common goal - Coordinating with the Client's Point of contacts to plan out the road map
Deduction Management	2018-2022	Senior Tech Manager	Java 8.0, Spring MVC, Spring Data, Angular 6.0, MS SQL 2018, Spring Batch, Apache Spark, Microsoft Azure, JBPM, Okta, Grafana, Redgate	Building a Platform for Retail Domain, Ingesting Invoice Data, Payments Data, Manual Invoice allowing creation of Claims, managing custom workflows with review of the claims, building communication flow between Buyers and Suppliers.
Supplier Information Management (SCM)	May'12 – 2018	Senior Tech Manager	Spring Framework 5.0, Hibernate 4.5, REST, Angular 2.0, JBPM, MS SQL Server 2012, Maven, Hudson	Data Collection & Management – Web Flows and configurable Custom Forms are used to meet up every Customer's individual Requirements. Validation Services – Sensitive data collected from Suppliers is validated against External Validation Services. Security & Permissions Security is enforced through Spring Security, CAS and SAML 2.0 enabled SSO Implementation Integrations & Uploads – Data is exposed through Webservices and consumed by external ERP system's Integration.
Project ROADS (Retail)	Jan'11 – May'12	Tech Lead	Spring Framework 3.0, RESTful, JSF 2.0, JPA, EclipseLink, Liferay 6.0, MongoDB, CloudFoundry	Backend services & persistence layer developed on Spring IoC and JPA respectively. Services exposes the services/data through Spring REST providing payload in JSON format. Application has Portlets based Web Interface developed using Rich UI through ICE Faces (JSF 2.0 Implementation), Spring IoC, deployed on Liferay Server.
Software as a Service Aggregation Platform – SaaS AP (Finance)	Aug'09 – Nov'10	Senior Developer	Java, JSP, Servlets, Spring Framework 2.5, Jboss 5.0, Oracle 10g, VSS 6.0	SaaS AP is a Service Delivery Platform to facilitate and standardize the processes for service providers to enable a SaaS business model and product offering for communication and IT services. It provides a web interface for managing Application Service Providers, Resellers, SMBs & End Users. It also manages the provisioning of Services, Products and Service Plans.
FAST Integration	Feb'09 – Jun'09	Senior Developer	Dot.Net 3.5, Microsoft SharePoint Server 2007, C# 3.0, ASP.NET 3.5	A SharePoint Intranet search tool that was used by EDS SharePoint sites integrated to HP intranet.
SpaceCat	Jan'08 – Dec'09	Senior Developer	Core Java, XSLT, JDOM, JMX, log4j, UNIX Shell Scripting	An application Service developed in Java and configured to be controlled using JMX console. The application is designed and divided into different stages to perform various task on the docs. Picks documents from repository, Processes the metadata and payload of the document, Does the entitlement tagging for each document, Zips the formatted docs and provides them to ODS Loader for loading
ODS Loader	Feb'07 – Dec'07	Senior Developer	Core Java, JDOM, Java Mail, UNIX Shell Scripting	An application tool developed in Java and runs on a UNIX machine to checks metadata files of the documents prior to loading the document to another repository followed by generating and maintaining logs for every stages
